The mission of this site is to bring together all the entities and individuals that are separately working toward accomplishing what constitutes in fact their common mission, namely, to ensure integrity in our federal and state courts. By focusing our efforts and combining our resources we can pursue it much more effectively than up to now. To that end, a Programmatic Proposal is put forward for accomplishing that mission by achieving three realistic and progressively attainable objectives through a program of specific, manageable activities.

Programmatic Proposal

to Unite Entities and Individuals to Use Their Resources Effectively
in Our Common Mission to Ensure Integrity in Our Courts
by Engaging in Specific Activities to Achieve Concrete Objectives

Summary of Objectives and Activities

(v.2 as of October 30, 2006)

1. Unite entities and individuals across the nation who denounce judges engaged in coordinated wrongdoing, such as bankruptcy fraud schemes, so that with their combined efforts and resources a virtual firm can be formed on the Internet composed of:
 - a) investigative journalists that will search for evidence of such wrongdoing in a Watergate-like *Follow the money!* investigation that will start with filed bankruptcy petitions, follow their leads through the schemers' webs of personal and financial relationships, and end exposing the uncovered evidence in a media campaign on the Internet as well as through local and national newspapers and radio and TV stations; and
 - b) lawyers that will bring a class action on behalf of people injured by judges shown by the journalists' evidence to have participated in coordinated wrongdoing as well as on behalf of people who have exercised the right to file a complaint against a judge only to have their complaints systematically dismissed by judges protecting one another;so that ever more members of the public will be made aware of the extent and damaging consequences for everybody of coordinated wrongdoing by judges. By the same token, other kinds of fraud schemes, such as in probate, tax, or family courts, can be included in the investigation if the leads are likely to result in finding evidence of criminal activity that when made part of the class action will not be liable to exclusion under the judges' pretext that such evidence concerns judicial acts covered by the doctrine of judicial immunity, which certainly does not protect judges from being prosecuted for participating in criminal activity.
2. Thereby, cause an outraged public to force the authorities outside the judiciary, such as the FBI, the Department of Justice, Congress, and their state counterparts, to investigate coordinated wrongdoing in the judiciaries and proceed to the impeachment or prosecution and conviction of judges and other wrongdoers, and bring about the retirement of other unfit judges.
3. Channel the public's demand for integrity among judges to the reform by law of the mechanism of judicial discipline through the creation of an external body -whose members would be unrelated to, nominated, confirmed, and mandated to function independently of, the judiciary- for receiving and acting on complaints about judges' conduct and for inspecting their use of public funds.
